GENERAL CATALOGUE  
OF  
BOWDOIN COLLEGE

AND THE MEDICAL SCHOOL OF MAINE

*A Biographical Record of Alumni and Officers*

1794-1950

*Sesquicentennial Edition*

BRUNSWICK, MAINE: 1950

The seal on the cover of this volume is the official Seal of Bowdoin College. It represents the rising sun, appropriate because, at the time of its adoption, Bowdoin was the easternmost college in the country.

The coat of arms on the title-page is that of the family of James Bowdoin (1752-1811), first patron of the College. It has been used by the College, in several modified forms, for more than a century.

## PRESIDENT'S INTRODUCTION

**T**HE publication of the present General Catalogue comes appropriately in the Sesquicentennial period of the College—from 1944 to 1952—when we observe the anniversaries both of the granting of the Charter in 1794 and the opening of the College in 1802. In that space of 150 years many hundreds of men have spent four years on the campus and have gone on to fame or unrecognized achievement; hundreds of others have not completed the course for a degree but have benefited by the time spent here and many have become among the most loyal and distinguished sons of Bowdoin. The College has throughout the years remained somewhat strictly a college of liberal arts for men, although under its aegis a good medical school was maintained for one hundred years only to be closed because of financial stringency in 1921; and although for a few years in the late seventies an extraordinary though very small department of engineering turned out some excellent graduates.

Manifestly this General Catalogue is primarily, as the name implies, a reference book, a register of names. It is in no literal sense a history though it contains much historical material; nor is it a Bowdoin Who's Who. Nevertheless, with a little imagination we may read here example after example of men who have been influenced all of their lives by what Bowdoin has taught and even more by what Bowdoin has stood for. In a very real sense then this volume is dedicated to the Alumni of the College who have graduated in good days but are only forerunners of their successors who will continually find that the best years of Bowdoin are the years ahead.

KENNETH C. M. SILLS

## EDITOR'S PREFACE

THIS is the fifth edition in English (there were twenty-three in Latin) of the General Catalogue of Bowdoin College and the Medical School of Maine, published thirty-four years after the appearance of the fourth edition (1912) and its supplement (1916). It presents in brief, condensed form biographical data covering each of the more than fifteen thousand men and twenty-six women who have been directly associated with the College and the Medical School since the signing of the College Charter in 1794. It is not a *Who's Who* of Bowdoin men, for space has not permitted the listing of hobbies, publications, club and fraternal affiliations, or even the names of business firms with which alumni have been associated. In general, our pattern has been that of the 1912 edition, but we have included additional information, notably Commencement honors, membership in the Athenaeum and Peucinian Societies, in Phi Beta Kappa and the undergraduate fraternities, and service to the College as elected members of the Alumni Council and as Directors of the Alumni Fund. We have also noted all cases where one Bowdoin man has been the son of an earlier member of the College. As Professor George T. Little, of the class of 1877, said in his 1912 Prefatory Note, we regret "the necessity of omitting the record of many positions held by graduates which would illustrate the influence and esteem they have won in their respective communities. Here the temptation to deal fully with the living was also checked by inability to deal fairly with the dead in similar particulars."

As the book is not a *Who's Who*, neither is it an Alumni Directory. Such a volume was published by the Alumni Office in 1948 and it is to be hoped that similar books, of current rather than permanent record, may appear frequently.

The work of the editorial staff, headed for a time by Mrs. Margaret Washburn and, since 1947, by Mrs. Miriam Stover Thomas, has been very extensive in its scope. Only about forty per cent of our living alumni returned their first questionnaires, and more than 25,000 letters have been exchanged in the attempt to complete the book. The task of editing has been a difficult one. Some men have submitted information detailed far beyond our needs or our possible publication. Others have been modest or reticent to a degree which has increased our work. Many have never been heard from since leaving Bowdoin.

To those who may feel that we have not done full justice to them, or to certain of their friends or classmates, I can only say that we have done our best, within the established limits of our editorial pattern and of brevity and consistency, to offer a clear record of the individuals who have made the College, who have been and who are the College.

As in the earlier editions, we have been forced to use a multitude of abbreviations (see pages xi-xv) and cross references. Some points have not been clearly made. For example, we have recorded all World War service with the Army as "USA" and with the Navy as "USN," ignoring the technical classifications of "AUS," "USNR," etc. This has produced a number of peculiar listings, confused by temporary wartime promotions and by occasional change from regular to nonregular status in the service, or the reverse. We have not used the word "Bowdoin" in connection with service with the staff and faculty. For example, Jotham B. Sewall, A.B. 1848, is listed as "Tutor Greek 1851-52" rather than as "Tutor Greek Bowdoin Coll. 1851-52." Ex-

cept for the Presidents of the College, full information on each individual appears only once in the book, with cross references provided in all appropriate cases. Thus, the name of one 1915 graduate will also be found in the listings of "Trustees and Overseers," "Officers of Instruction and Government," and "Honorary Graduates," with the notation "A.B. 1915."

The book lists all members of the classes through 1949, together with the members of later classes who received their degrees in February 1950, or are considered as candidates for degrees in June 1950.

The book has been prepared under the supervision of a Special Committee appointed under the authority of the Governing Boards under the chairmanship of John W. Frost, Esq., '04, President of the Board of Overseers. Mr. Fred R. Lord '11 of the Overseers served on the Committee for one year to 1947; Mr. Harrison Atwood '09 from 1947 to date. The Faculty has been represented by the Editor, the Librarian, Mr. Kenneth J. Boyer, the Alumni Secretary, Mr. Seward J. Marsh '12, and by Professor Herbert R. Brown. We are indebted to the printer, Frederick W. Anthoensen, A.M. (h'47) for invaluable counsel and advice.

We acknowledge with gratitude the coöperation and assistance of hundreds of correspondents, alumni, town and city clerks, librarians, college and university officials. Most must be nameless, but some, as representatives of many, have been listed on another page.

Thanks also are extended to the staff members, most of them wives of undergraduates, who, with Mrs. Thomas, have done the meticulous work of building the book from the thousands of items of record which now fill dozens of thick scrapbooks and some fifteen standard filing cases in the office in Hubbard Hall.

This is no ordinary book, to be read from cover to cover, or to be set aside after brief trial by those into whose hands it comes. It will be read, instead, with searching eyes by each alumnus as he seeks out his own particular item, and with only slightly less care as he scans the records of his classmates and immediate friends. Often the records will be found incomplete, sometimes, we fear, in error. May it suffice for us to say again that we have done the best we could, with what we had, and within our established pattern of consistency.
